“Giving Voice To Values (or GVV) is a new and innovative way of thinking about, teaching about and acting on our values in our careers” and in our wider lives. Rather than focusing on trying to figure out what the right thing to do is in any particular situation “an important question, to be sure” Giving Voice To Values asks a different question.

I argue that the current rhetoric about giving voice to children, commonplace both inside and outside the academy, poses a threat to the future of childhood research because it masks a number of important conceptual and epistemological problems. In particular, these relate to questions of representation, issues of authenticity, the diversity of children's experiences, and children's ...
