### **Global Development of Organic Agriculture - äf^äffäf—äfsäf¼ã,,**

Global Development of Organic Agriculture is valuable for its both explicit and implicit championing of the diversity of organic agriculture systems - and in particular, its acknowledgment of the legitimacy and value of both certified and non-certified organics. In this, it serves as a useful foil to the fortress organics mentality that sees non-certified organics as some kind of impostor or threat to "the brand". This book takes as a starting premise the legitimacy and value of both ...
