poverty and income distribution. The impact of globalization on poverty reduction has been uneven but the findings in the literature are sensitive to modelling choices. Trade liberalization improves aggregate welfare but the gains are small and unequally distributed. The welfare effects are measured basically through price changes, focusing on the effect on the relative demand for domestic ...

## **Trade, Income Distribution and Poverty in Developing**

The globalization debate presents two sharply divergent views of the effect of globalization on poverty and income inequality. Mainstream economists argue that globalization has not been the culprit in any increase in inequality and poverty. Others, on the streets and in the media, see globalization as good for the rich but distinctly bad for the poor. In this essay, based on a speech
