The striking aphorisms in Gravity and Grace reflect the religious philosophy of Weil's last years. Written at the onset of World War II, when her health was deteriorating and her left-wing social activism was giving way to spiritual introspection, this masterwork makes clear why critics have called Simone Weil "a great soul who might have become a saint" and "the Outsider as saint, in an age ...

The Gravity Recovery and Climate Experiment (GRACE) was a joint mission of NASA and the German Aerospace Center. Twin satellites took detailed measurements of Earth's gravity field anomalies from its launch in March 2002 to the end of its science mission in October 2017. By measuring gravity anomalies, GRACE showed how mass is distributed around the planet and how it varies over time. Data ...
