### **Handbook of Educational Policy (Educational Psychology**

The Handbook of Educational Policy provides a comprehensive overview of policy questions in education reform at local, state, and national levels. The book raises controversial questions, such as who really benefits from educational reform, and investigates issues of accountability, assessment, educational fads, technology in education, and other matters of educational policy. The book explores not only what education is, but what it can be and should be, providing a scholarly analysis of ...
